## MAIN TITLE

## "INDUSTRIAL WORKING CONDITIONS" ✓

Produced by  
Ford Motion Picture Laboratories  
Released through Fitzpatrick & Mc Elroy  
Copyrighted 1921 by Ford Motor Company

## SUB TITLES

1. Do you know that ----
2. ---- in America, where labor saving has progressed so rapidly, conditions are more favorable to the working man and working woman than anywhere else in the world.
3. Labor saving machinery finds its way into many industries.
4. In the hotel kitchen see how the dirty dishes disappear -----
5. ---- and how easily ice cream is made.
6. In making garments many thicknesses are cut at the same time by means of a circular knife.
7. Much heavy work is done by automatic machinery ----
8. ---- as in making an automobile, weighing coal and feeding fuel to the fire. The fireman adjusts the feed.
9. And in coal mining.
10. Other labor saving machinery shortens the workman's day -- and incidentally increases production.
11. In saw mills, conveyors have added greatly to efficiency.
12. Another type of conveyor -- this in an automobile factory.
13. Cleanliness, too, makes work agreeable.
14. In a candy factory the workers are dressed in white, and must meet the factory standard of cleanliness.
15. And in making gum, too.
16. A hotel kitchen is a delightful place to work, for there dirt is unknown and pots and pans reflect the efforts of the workers.
17. The lives and health of the workers are safeguarded.
18. Cut glass makers, wearing nose and mouth protectors to avoid inhaling poisonous gases.
19. In coal mining, too, safety is not overlooked.
20. In recent years, employers have taken much interest in the workers. Many manufacturing and business organizations give their men instruction with the aid of motion pictures.
21. Some of them also maintain a legal department for their employees. A worker has decided to buy a home. He visits the legal department to have the deed examined.
22. Let us take some general views in great industries.
23. In the forge shop of an automobile factory.
24. A corner in patterns.
25. Boys starting nuts on bolts.
26. Weaving lace curtains.

(THE END)

This document is from the Library of Congress  
“Motion Picture Copyright Descriptions Collection,  
1912-1977”

Collections Summary:

The Motion Picture Copyright Descriptions Collection, Class L and Class M, consists of forms, abstracts, plot summaries, dialogue and continuity scripts, press kits, publicity and other material, submitted for the purpose of enabling descriptive cataloging for motion picture photoplays registered with the United States Copyright Office under Class L and Class M from 1912-1977.
